## **FaceSculpting**

FaceSculpting is a new way to enhance and reshape your face by working on muscles under the skin to refresh, revitalize, lift and sculpt your face by your own hands! FaceSculpting is a high-intensity exercise that will stimulate muscle myofascial release and increase muscle tone. FaceSculpting stimulates the production of collagen, elastin, blood circulation and lymph drainage that in turn promotes intercellular exchange.

How fast will you see the results? – from 2 weeks to a month of the regular trainings in a complex.

What can I get rid of? – puffiness, saggy upper eyelids, double chin, deep nasolabial fold, wrinkles, sagging face, long nose.

What can I improve? – complexion, skin and muscle tone, facial features, lip volume, nose size, height of cheekbones and more.

One-month training \$400.00 Call for free 30 min consultation with training.
